

Supplier Code of Conduct

December 2020

This Supplier Code of Conduct (“Code”) sets forth the principles and standards of conduct that Brookdale Senior Living, Inc. (Brookdale) expects suppliers, their employees, subcontractors, and sub-suppliers to meet during the provision of goods and services to Brookdale. To support compliance with this Code, suppliers shall ensure that the Code is shared with all individuals assigned to perform work for or on behalf of Brookdale, and that all Brookdale-related tasks are executed by individuals with the skills, expertise, and certifications necessary to uphold the principles and meet the standards of the Code.

TO ALL CONTRACTORS, CONSULTANTS, SUPPLIERS, AND VENDORS

Brookdale Senior Living, Inc. (Brookdale) is committed to enriching lives every day. To that end, we strive to ensure each business decision is aligned with our mission and our commitment to operate with high ethical standards. Achieving this mission is not only important to who we are as a company, individuals, and how we manage our business internally; but also in how we work with vendors, consultants, contractors, partners, governments, and any company and/or person doing business with Brookdale (collectively referred to as “suppliers”).

We have established company policies, procedures, and overall standards including ethical business practices and regulatory compliance with applicable laws and regulations. These standards apply to all Brookdale associates; and similarly, we fully expect all suppliers to embrace and share this commitment to integrity by complying with our Supplier Code of Conduct (also referred to as “Brookdale’s Supplier Code of Conduct,” “Code,” “Supplier Code,” and “Code of Conduct”).

Brookdale’s Supplier Code of Conduct sets forth the principles and standards of conduct that suppliers, as well as their employees, subcontractors, and sub-suppliers must adhere to as they provide goods and services to Brookdale. Suppliers are to ensure the following:

- The Brookdale Supplier Code of Conduct is shared with individuals assigned to perform work for or on behalf of Brookdale;
- Any work performed for or on behalf of Brookdale is done in full compliance with the Supplier Code, all applicable laws and regulations, and in accordance with the highest standards of ethical business conduct; and,
- All work performed for or on behalf of Brookdale is done by trained individuals with the skills, expertise, and certifications necessary to complete the job in a safe and compliant manner.

While Brookdale suppliers are expected to self-monitor with our Code of Conduct, Brookdale may audit or require suppliers to demonstrate and/or confirm compliance. Suppliers must promptly notify their Brookdale contact (or a member of Brookdale management) if/when any situation develops causing them to operate in violation of the Supplier Code of Conduct. Suppliers may also call Brookdale’s Integrity Helpline at 1-888-302-3303 with questions on compliance or ethics issues, to report activities they believe may be illegal or unethical, or to raise concerns about questionable issues. The Helpline is available 24 hours a day, 7 days per week, and suppliers may call anonymously.

Compliance with Brookdale’s Supplier Code of Conduct and attending Brookdale-sponsored training, if offered, on the Supplier Code of Conduct is required in addition to any other obligations in any agreement and/or contract a supplier may have with Brookdale. Failure to comply with the expectations set forth in the Code may result in termination of a supplier, individual(s) associated with a supplier, and/or contract.

We understand that a strong commitment to compliance and ethics is the foundation of a successful business; and we regard our supplier base as a critical and necessary extension of our mission, operations, and future success. We appreciate your commitment to making compliance and ethics a top priority as you work with Brookdale.

STANDARDS OF CONDUCT

HEALTH & SAFETY

The safety of the residents, employees, and suppliers is Brookdale's highest priority. Working safely and in compliance with all applicable safety rules, laws, standards, and procedures, including the Occupational Safety and Health Administration (OSHA) rules and regulations (or local equivalent), Health Insurance Portability and Accountability Act (HIPAA), State laws, Board of Pharmacy Laws, Medicare, Medicaid, with this Code of Conduct, and with any additional requirements from Brookdale, is a condition of engagement as a supplier to Brookdale.

Basic safety and health expectations and requirements are set forth below. Additional requirements specific to the work undertaken by a supplier may be specified in contractual language or by the supplier's Brookdale Procurement contact.

- **Public Safety:** Supplier shall identify and eliminate all potential public safety hazards associated with any activity, service or product or equipment/tool deployed in the execution of a service for or on behalf of Brookdale. Where hazards cannot be eliminated, they shall be controlled to within acceptable regulatory limits and recognized industry best practices. Appropriate public engagement, communication, and access control shall be undertaken to ensure no hazard exposure and no harm to the public.
- **Occupational Safety:** Supplier shall identify workforce exposure to safety hazards via risk assessments and job safety analysis. Hazards shall be eliminated or controlled through proper design, engineering, procedural controls, and ongoing safety training. Where hazards cannot be adequately controlled by these means, the workforce shall be provided with appropriate, well-maintained personal protective equipment ("PPE"). As critical partners in achieving zero workplace injuries, Brookdale contractors and suppliers are encouraged to report near hits and are empowered and expected to stop the job if they observe work being performed in an unsafe manner by either a Brookdale employee, Brookdale contractor, or third party conducting Brookdale-related work at or around a Brookdale community.
- **Vehicle Safety:** Supplier shall ensure that all vehicles used and transportation activities undertaken in the execution of Brookdale business are compliant with applicable Department of Transportation ("DOT") and Department of Motor Vehicles ("DMV") regulations and codes. When operating a vehicle for Brookdale business, drivers shall carry a valid driver's license, comply with the state vehicle code, and operate their vehicle safely at all times, including minimizing all distractions while driving and obeying all posted road regulations.
- **Industrial Hygiene:** Occupational hygiene and medical surveillance methods shall be implemented by supplier for all applicable work activities to identify, eliminate and/or control workforce exposure to chemical, biological, and physical agents and to provide ongoing monitoring and surveillance of affected personnel. Engineering or administrative controls shall be used to control overexposures. When hazards cannot be adequately controlled by such means, the health of the workforce shall be protected by appropriate PPE and programs.

Report incidents, injuries, and property damage to Brookdale

All occupational injuries and illnesses, injuries to non-employees, damage to property resulting from Brookdale business activities, and any unsafe conditions that cannot be safely corrected, are to immediately be reported to the supplier's Brookdale Procurement contact or by contacting the 24-hour Brookdale Communities First Helpline at 888.888.4489.

Report or discuss safety concerns

To report or discuss a safety concern/issue, suppliers and contractors may also email procurement@brookdale.com.

- **Emergency Preparedness:** Suppliers shall identify potential emergency situations and events associated with the work or location of the work to be carried out for or on behalf of Brookdale and minimize potential impacts by implementing emergency plans and response procedures. The following emergency plans and response procedures should be contemplated by Brookdale suppliers: response equipment and PPE, emergency response reporting, workforce/public notification and evacuation procedures, emergency response training and drills, appropriate fire/emergency detection and suppression equipment, adequate exit or escape paths and recovery plans.
- **Fitness for Duty:** Suppliers shall have a process in place for determining if members of their workforce are safely able to perform the essential physical, psychological, and cognitive requirements of their job without risk to self, others, or the environment, and to ensure that they are not impaired by drugs, alcohol, disabling medical conditions, or fatigue. Suppliers must also comply with any other fitness-for-duty regulations that apply to the work being carried out for or on behalf of Brookdale, such as, but not limited to, those required by OSHA, HIPAA, Medicare, or Medicaid.
- **Use of Drugs and Alcohol:** The use, possession, purchase, sale, or the offer to sell, transfer, provide or share illegal drugs during the execution of work for or on behalf of Brookdale or while on Brookdale property is prohibited, as is being in possession of or under the influence of medication prescribed for someone other than the prescribed patient. Suppliers are to inform their Brookdale Procurement contact if they suspect that any member of their workforce is taking prescription drugs or over-the-counter medications which could reasonably affect the ability to work safely or efficiently.
Similarly, work for or on behalf of Brookdale must never be performed while under the influence of alcohol. Alcohol may not be consumed on Brookdale property or while working on behalf of Brookdale, including at meal times. Noncompliance with this requirement will result in the offending worker's termination from a project and may result in termination of a supplier's assignment with Brookdale. Exception: Executive Committee members and Vice President of Procurement may authorize, in advance and in writing, the consumption of alcohol for special occasions or for certain business meetings as long as such use is limited and does not violate the other legal requirements, such as, but not limited to, those of the U.S. Department of

Transportation, OSHA, HIPAA, Medicare, or Medicaid. Brookdale-owned, leased, or rented vehicles may not be operated after consuming alcohol, even if consumption is permitted under the exception described above. Alcohol may not be transported in a Brookdale-owned, leased, or rented vehicle unless prior written consent is obtained from the appropriate Brookdale Procurement contact.

- **Weapons in the Workplace:** Unless written authorization to do so is formally obtained from Brookdale, weapons shall not be brought onto, carried, stored, or used on Brookdale's owned, leased, or rented property or in a Brookdale-owned, leased, or rented vehicle, in a personal vehicle while on Brookdale business or at a job site, whether performing Brookdale work or not. A "weapon" is a firearm, ammunition, explosive, or any other device or object that could be construed as a weapon. Weapons do not include tools that are used for legitimate business purposes.
- **Sanitation, Food, and Housing:** Where applicable, members of supplier's workforce shall be provided with ready access to clean toilet facilities, potable water, and to sanitary food preparation, storage, and eating facilities. Where dormitories are provided by the supplier or a labor agent these shall be maintained to be clean and safe and provided with appropriate emergency egress, hot water for bathing and showering, adequate heat and ventilation, and reasonable personal space along with reasonable entry and exit privileges.

ENVIRONMENTAL LEADERSHIP

Brookdale is committed to being an environmental leader and demonstrating this through its actions, including conducting its business in full compliance with the letter and spirit of all applicable environmental laws and regulations and operating in an environmentally sensitive manner consistent with its values and sustainability mission. Brookdale requires that suppliers operate in a similarly environmentally responsible manner, with management measures including the following:

- **Risk and Impact Identification and Management:** Supplier shall identify, inventory, and characterize any excessive emissions, releases, wastes, and natural resource use occurring during the course of operations performed for or on behalf of Brookdale. Processes shall be in place to identify, assess, mitigate, and manage potentially significant contingent risks and impacts to the health of Brookdale residents and Brookdale associates.
- **Compliance with Environmental Legal Requirements:** Supplier must carry out operations in full compliance with the letter and spirit of all applicable environmental laws, regulations, and standards. Supplier will also comply with any additional environmental requirements specific to the products or services being provided to Brookdale as called for in design and product specifications and contract documents.
- **Pollution Prevention and Resource Preservation:** Supplier shall identify and implement opportunities to reduce or eliminate waste and pollution at its source and to continually improve resource and materials use efficiency.

SUPPLIER DIVERSITY

Brookdale is committed to being recognized as a Supplier Diversity leader committed to provide maximum practical business opportunities to women, minority, and service-disabled veteran-owned business enterprises (collectively diverse business enterprises or “DBE”). Brookdale expects its suppliers to strive for the same, including, but not limited to mentoring DBE subcontractors or business solution partners, sharing expertise, systems, and tools with DBE subcontractors or business solution partners, seeking to integrate DBEs in different ways throughout their supply chain and seeking maximum DBE participation. By fully including DBEs in its supply chain Brookdale seeks to optimize innovation, provide better business solutions, promote community economic vitality, help to stimulate local job creation, and ensure that Brookdale’s supplier and extended supplier base closely mirrors that of its resident population. Brookdale does not use set-asides, preferences, or quotas in administering our Supplier Diversity program.

LABOR ISSUES & HUMAN RIGHTS

Brookdale expects its suppliers to know and uphold the human rights of all workers, whether temporary or contract employees, and to treat all their workforce members with dignity and respect, providing them with safe and humane working conditions. Expectations including the following:

- **Freely chosen employment:** Supplier shall not use or participate in the exploitation of workers, forced labor, or involuntary labor. All members of the workforce shall be free to leave the workplace or to terminate their employment at any time. No workforce member shall be required to surrender any government-issued identification, passports, or work permits as a condition of employment. All fees charged to the workforce shall be disclosed upon request and excessive fees are unacceptable.
- **Child Labor:** Supplier shall not employ any person under the minimum legal age for employment as prescribed by the relevant local authority or under the age for completing compulsory education, whichever is greatest. Legitimate workplace apprenticeship programs, which comply with all laws and regulations are supported. Workforce members under the age of 18 shall not perform work that may expose them to hazards.
- **Wages and Benefits:** Wage payments and benefits must comply with all applicable laws and regulations. This includes behavior, comments, jokes, slurs, email messages, pictures, photographs, or other conduct that contributes to an intimidating or offensive environment such as bullying, initiation activities, or workplace hazing regardless of the other person’s

willingness to participate. Suppliers are to comply with applicable local, state/provincial, and federal/national legal requirements prohibiting conduct that could reasonably be construed as sexual in nature, or discrimination or harassment based on race, color, age, gender or gender identity, sexual orientation, ethnicity, genetic information, disability, pregnancy, religion, political affiliation, medical condition, veteran status, ancestry, union membership, or marital status. These, or any other non-job-related factors, shall not be used as grounds for discrimination in hiring and employment practices, including advancement, disciplinary decisions, benefits, training or general workplace conduct.

- **Workplace Violence:** Acts or threats of physical violence, intimidation, harassment or coercion, stalking, sabotage, or similar activities shall not be tolerated by a Brookdale Supplier. Engaging in acts of threat or violence will result in the termination of the offending worker and may result in the termination of the supplier's assignment and, or contract with Brookdale.
- **Humane Treatment:** Supplier shall ensure that all members of the workforce are treated with respect and that no use is made of corporal punishment, threats of violence, or other forms of physical coercion or harassment. Disciplinary policies and procedures in support of these requirements shall be clearly defined and communicated to workers.

In addition, privacy and information security laws and regulatory requirements must be complied with when personal information is collected, stored, processed, transmitted, and shared. Supplier shall meet reasonable expectations to protect the personal information of employees, suppliers, customer, and residents. Applicable requirements can be identified by emailing a request for information to procurement@brookdale.com.

- **Confidential Information and Intellectual Property:** Confidential and protected information is Brookdale proprietary or third-party information intended for use within Brookdale that, if disclosed to or modified by unauthorized individuals, could result in the risk of financial loss, productivity lost, or damage to Brookdale's reputation.

Confidential and protected information includes legal documents, contracts, proposals, information about a specific employee or customer (including name, address, Social Security number, phone numbers, contact names, and billing data), intellectual property, and trade secrets (e.g., competitive strategy, trading, investment, costs, supplier name/contract/pricing information, finance methods). CONFLICTS OF INTEREST

Brookdale expects its suppliers to exercise reasonable care and diligence to prevent any actions or conditions that could result in a conflict with Brookdale’s interests, the appearance of a conflict of interest, or that may compromise the exercise of independent judgment during the execution of work for or on behalf of Brookdale:

- **Conflicting business interests:** While engaged in Brookdale-related work, suppliers shall not accept any employment or engage in any activity that creates a conflict of interest, the appearance of a conflict of interest with Brookdale, or in any way compromises the work that suppliers are contracted to perform on behalf of Brookdale. A conflict of interest can arise if actions are taken or if there are interests that may make it difficult for suppliers to perform Brookdale-related work objectively and effectively. Examples include, but are not limited to, working with Brookdale competitors, state or federal surveyors, state or federal auditors, or businesses interested in entering into the Senior Living Solutions marketplace. Any potential conflicts shall be disclosed to supplier’s Brookdale Procurement contact and written concurrence obtained that a stated supplier is allowed to remain in a situation that could be perceived as a conflict. Any questions about a conflict of interest should be raised with supplier’s highest level Brookdale Procurement contact.

- **Close Personal Relationships:** Close personal relationships between supplier workforce members and Brookdale employees responsible for monitoring supplier’s performance should be avoided in order not to compromise the exercise of independent judgment or lead to claims of a conflict of interest. To avoid these problems and to foster a positive work environment, supplier shall promptly report to their Brookdale business contact any close personal relationships that result, or could result, in a conflict with this standard.
- **Gifts to Brookdale Employees:** Brookdale discourages suppliers from giving gifts to company employees. This includes giving a gift in a business setting which can create a sense of obligation or the appearance of an obligation. A gift can be anything of value, including such items as an invitation or ticket to a sporting event of play, a non-business meal, a bottle of wine, a coffee cup, a free service, a special discount, or an all-expense paid trip to a conference or trade show.

Similarly, Brookdale forbids its employees, as well as members of their immediate families, from accepting gifts from suppliers or similar business contacts doing business with or seeking to do business with Brookdale, unless all of the following conditions are met:

- The value of the item is less than \$75 and the value of all gifts from the supplier during a 12 month period does not exceed \$75. A gift that exceeds either value must be approved by a Brookdale Executive Committee member. Any such gift to a Brookdale Executive Committee member must be approved by the Chief Executive Officer of Brookdale.
- The item does not create any appearance of impropriety.
- The item imposes no sense of obligation on the receiver.
- The item results in no special or favored treatment.
- The item could not be considered extravagant, excessive, or too frequent considering all of the circumstances, including the Brookdale employee’s ability to reciprocate at Brookdale’s expense.
- The item is not concealed in any way.

Suppliers shall not give Brookdale employees gratuities of cash, redeemable gift cards, or offer loans, or payments under terms that are not available to the general public.

“Customer business meals” are not considered gifts. These are routine meals similar in cost to Brookdale employees’ meals when they entertain clients.

- **Gifts to Foreign Officials:** United States companies and their employees and agents doing business outside the United States are required to comply with the provisions of the Foreign Corrupt Practices Act (FCPA). As such, no gift, money, entertainment, service, or other item of value may be promised to a foreign official or the official’s friends or family members, in connection with work with Brookdale. For purposes of the FCPA “foreign official” includes any officer, employee, candidate, agent, representative, official, or de facto official of any non-U.S. government, military, government-owned or affiliated company, political party, or any public

international organization. Even simple business courtesies such as meals, entertainment, or travel may be illegal under the FCPA or the laws of the host country. When doing business in a foreign country or with a representative of a foreign country, supplier must maintain detailed records of transactions involving Brookdale and any questions should be discussed with the Brookdale Procurement contact.

ENGAGEMENT WITH EXTERNAL PARTIES

 - *Example 1:* A Supplier must obtain a routine city or county permit before beginning work for Brookdale and the supplier must pay a fee to the appropriate local government agency. As long as the supplier follows the standard procedure and does not offer any gift (including a cup of coffee), job, or payment to a public official or employee, the supplier does not need to contact Brookdale Procurement.
 - *Example 2:* A Supplier needs to rent space near a Brookdale job and learns that a public official or employee who must approve the Brookdale job owns the space the supplier would like to rent.
