

How to

# Video Chat

with FaceTime®

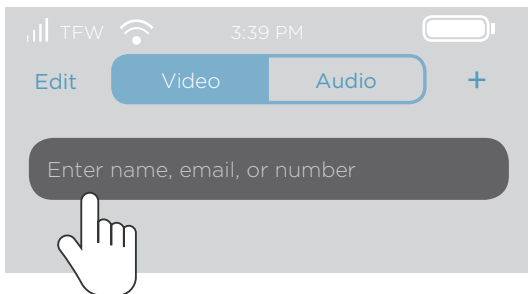

Using FaceTime is easy! Just follow these simple steps.

1.

**Open the FaceTime app.** On an iPad, the app icon looks like a little movie camera on a green background. Give it a tap, and you're on your way!

*You may need an Apple ID to use FaceTime. If you're not currently signed in with your Apple ID, FaceTime will ask you for your Apple ID and password. If you don't have an Apple ID already, you'll have a chance to create one in this step.*

2.

**Type a name or phone number in the Search bar.**

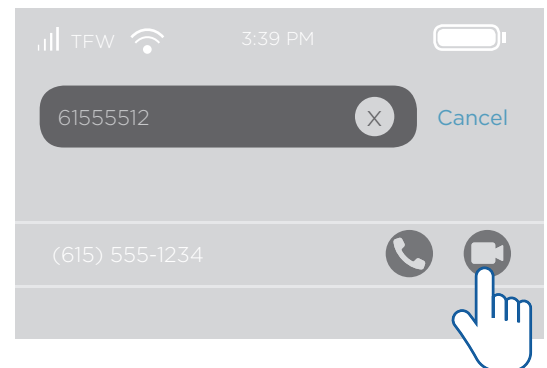

That's the little area up at the top that says "Enter name, email or phone number."

3.

**Touch the camera icon to start your video call.**

You'll know you've connected successfully when your friend's face fills up the window. All you have to do now is talk to the screen.

**Make sure to log off** when you are done when using a public computer or iPad.
