

How to

Video Chat

with Google Duo®

Using Google Duo is easy! Just follow these simple steps.

1

Open the Google Duo app. The app icon looks like a little movie camera in a blue waterdrop background. Give it a tap, and you're on your way!

Both you and the person you are video chatting will need to have the app for video chats to work. Plus, you'll need a Google or Gmail account if you don't already have one. But it's really easy to sign up for a free account — just create a username and password!

I AGREE

2

Follow the steps to verify your account. You'll have to follow prompts to connect your phone number and Google account to the app. Type in your verification code, and click **I Agree** when it asks to connect your Google account.

3

Select a contact to video chat. When you have decided who to call, click **Start Call**, and choose either **Video** or **Voice** depending on whether you want to video chat or do a regular call. When you are done, just click **End Call**.

Add your favorite contacts' information for faster calling in the future!
